

AMENDMENTS

IN THE CLAIMS

Please amend claim 7 as follows:

5. (Cancelled)

6. (Cancelled)

7. (Currently Amended) A laminated material configured for use in laser ablation, said laminated material comprising:

first and second layers and an adhesive layer there between, wherein said first and second layers have different coefficients of thermal expansion, wherein said first layer has laser-ablated holes therein having diameters no greater than one micron, and wherein said second layer has a thickness and a hole extending through said thickness wherein a region of the first layer aligned with said hole is not laminated to the second layer and wherein said adhesive layer is not present on said region.

8. (Cancelled)

9. (Previously Presented) The laminated material according to claim 7, wherein the first layer comprises polyimide and the second layer comprises polyethylene.

10. (Previously Presented) The laminated material according to claim 7, wherein the first layer has a peak-to-peak roughness of less than about 20 microns.
